

Legacy Preservation: Family History DVD Production Service

We come to your location and shoot video footage of your family photograph albums (Panning and scanning details in the photographs, and areas of interest) while you talk and describe whats in the photos, tell stories about the photos, when they were taken, who is in them etc. - **Preserve Important Family History, Photographs, notes, and details in your own voice on a DVD.** Footage can also include your comments, special greetings ETC. This footage is then professionally edited and made into a professional quality DVD up to 2 hours in length. The DVD will include chapters with buttons for different sections and points of interest in the video

\$499 Price Includes:

On Location DV Video Shoot / Audio Recording and Interview (up to 4 hours total)
